

### Introduction

The Children's Policy Council Needs Assessment is an opportunity for local communities to inform state policy-makers of the unmet needs of children throughout the state. The growing demand for evidence-based practice requires using metrics. As policy-makers rely more and more on data to drive decisions, we ask CPCs to provide objective data to support their identified needs.

We appreciate your willingness to dig deeply into what is happening at the local level to inform state leaders and ultimately guide policy and funding decisions.
