

**Introduction**

The Children's Policy Councils Needs Assessment is an opportunity for local communities to inform state policy makers of the unmet needs of children throughout the state. The growing demand for evidence-base practice requires using metrics. As policy makers rely more and more on data to drive decisions, we ask CPCs to provide objective data to support their identified needs.

We appreciate your willingness to dig deeply into what is happening at the local level to inform state leaders and ultimately guide policy and funding decisions.

### Needs Identification

The questions below relate to the needs of children ages birth to 19 and their families in your county. The sections represent umbrella categories of needs which have been identified over the past several years through local CPC Needs Assessments. The data requested in each section aims to help identify root causes, risk factors and/or specifics within each category.

Please rank your county's top three needs and provide the requested data regarding those needs. If your CPC would like to rank five or more needs, please feel free to do so. You are welcome to answer as many questions as you would like on this survey, but we ask that you please answer at least all of the questions under your top three ranked needs.

Links to several data sources and local organizations are listed below as a resource to assist CPCs in completing the needs assessment and locating the requested information.
